INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

The Battle of Franklin in front of the lines of this Regiment were particularly severe, our men being pushed back of hastily constructed works.

But they were covered by an abatis of logs, Grange, or rather our men had cut down hedges of this Grange and placed in front of our ditches in such a manner that it was perfectly impossible for the enemy to get through or over it, and they were subject to the fire of our Regiment, during the over

RECORD OF EVENTS.

This Muster Roll is for 14 months from Dec 31 '63, to April 30 '64, and the reason is as follows: The Co. was absent on furlough at the time of the Feb'y muster, and did not return until the latter part of March. Capt. Taylor neglected to make out the rolls, and consequently there is no muster roll of this Co. for Jan'y & Feb'y. And the reason that I sign this roll as Comd'g the Co. is this, at the date of muster the Co. was on detached service, and Capt. Taylor failed to muster his Co. on April 30, and we were on the march all the time. And on the 16 of May (over)

10 P.M. July 10 took boarding and lodging by order at Soldiers Retreat, where the men faced very hard on corn coffee and tough salt beef, the bread being the only good thing furnished them. The barrels were filled with vermin. Under such a state of affairs the men almost mutinied. Tuesday 15 morning started on board steamer "Conformus" (the Sophia carrying the equipage &c) for Alexandria, Va. Landed and marched two miles and camped in the evening in the valley between Forts Lytt & Ellsworth. Remained in this sickly place until 24 when struck tents and moved three miles north to our present location, a pleasant elevation in front of Fairfax Seminary. Probable distance marched about 11200/twelve hundred miles.

We marched out about 3 miles and returned to our former camp where we remained until Friday morning Dec. 26 when we again started out and at noon we came up with the rebels near Holeneville Tenn. Our Reg. formed in line of battle about a half a mile and in an open field we halted. The enemy were concealed in the woods in front of us and as soon as we came up they opened on us with shot and shell and we fell back to a rail fence which we had torn nearly down in marching up. The Battery which we had supported (the 5th Wis. Capt. Pinney) was getting in position on our right and left opened on the rebels and they soon "skedaddled" they fell back over the hills into a ravine among the hills and our battery again ordered forward. We marched about a half a mile and took our position in a corn field with the

We formed in line of battle in the woods (cedar) where we staid that night and at half past 3 next morning we were up and in line of battle. It rained hard all night the wind blew cold and we were without fires. At daybreak we again started in pursuit of the enemy. About noon our skirmishers came up with those of the enemy in a cedar swamp so thick we could not tell how our line of battle run. We were soon ordered forward and came out of the swamp and directly in front of the enemy who opened fire upon us with shot and shell. We fell back to our former position in the swamp and were in good order losing only one man. We were in line of battle all night some of the men lying down but the ground was cold and wet and at 1/2 past 3 next morning we again formed in line of battle and remained until daylight at which time we could see the enemy marching toward our right. Major's Division was on our right with their battery placed in such a position as to take them down and cut them all to pieces but all we heard was a

We then fell back in good order, Johnson's batteries were taken without a gun being fired and many of his men were killed in their shells. The enemy came up in great numbers and we retreated about a half a mile and rallied and then came the hardest fighting of that day. As the contest became nearer our men became more desperate and we forced the enemy to fall back, they still held possession of the field which we had in the morning. On further account
